TAMMY HOLMES
@IVYDECOR.DESIGN

From starting her own design firm to renovating her new home, Tammy Holmes and her husband are an interior design duo to watch. Ivy Decor and Design is a luxury residential renovating, interior decorating and design firm. Thanks to Tammy's colourful and comfortable approach to interior design, she and the team transform luxury homes locally and internationally. Growing up with a mother who is also a designer, it was natural that Tammy also found herself interested in the same industry. "I've always been interested in interiors and it just felt like a natural progression from the business that I had before, which was a creative agency," she says. In need of some decor inspo? Ivy Decor and Design may be just what you need to turn your Pinterest boards into a reality this year.
