A quick fix

The brief that interior designer Tammy Holmes of Ivy Décor & Design received was simple: without changing any of the existing fixtures and fittings, add personality and life to this bathroom. “Since it’s a rental property, the owners wanted to create character without spending a fortune,” says Tammy. “The colour scheme in the bedroom consists of corals and greens; a similar palette was used here to connect the two spaces, and the quirky wallpaper adds a bit of fun.” For extra texture and detail, a grouping of baskets was placed on the wall. “Binga baskets offer an easy, cost-effective way to dress up a wall,” says Tammy. “They provide dimension and interest. A small shelf on the opposite side creates depth and provides space for knick-knacks and plants.” >>

STYLE TIP

More is more! Don’t be afraid to use bold colours on the walls or to wallpaper the whole room. Have fun! – Tammy

DID YOU KNOW?

Bathroom wallpapers do not contain paper – they’re made from vinyl or other synthetic compounds – so they won’t get damaged by moisture. However, it remains important to ensure proper ventilation for longevity.

Wallpaper from Cara Saven Wall Design; Binga baskets from Franschhoek Village Market; shelf from Makeen Design; towel from African Jacquard, pink travel tin candle from Amanda-Jayne Candles; kaftan from Chasing Bees
